# Capping Machines

## OPTIONS:

- Automatic Cap Sorting To Meet Your Needs Via Elevator or Vibratory Bowl
- Adjustable Cap Chutes
- Removable Double Gripper Belts
- Clutch Options for Added Torque Control
- Machine Enclosures
- F-Style Cap Spacers
- Container Spacing Belt or Wheel
- Reversible Spindle Set
- Nitrogen Purge Systems
- Heated Cap Options
- Cap Sterilization Options
- Hazardous Environment Construction
- Special Electrical Requirements
- Spare Parts Kits
- Upgradeable Design
- Hand-Held, Tabletop, Semi-Automatic and Automatic Machinery

## Standard Features\*:

- Power Height Adjustment
- Tool-Free Adjustments
- Accurate and Precise Cap Torque
- Ability to Cap Any Shape and Size Container
- Bottle Stabilizing Components
- Robust Construction – Built to Run 24/7
- Simple and Quick Changeover
- Designed to Integrate with Existing Machinery
- Detailed Set-Up Documentation, Mechanical Spacers and Manual
- Controlled Center Line Adjustment

## Benefits:

- Built to Your Size, Specifications, Budget & Production Requirements
- Consistent and Reliable Sealing of Containers
- Designed to Minimize Operator Contact
- Handle Almost Any Closure Type
- Reduce Repetitive Motion Injury
- Simple and Quick Changeover Adds Efficiency
- Reduce Labor Costs While Increasing Productivity
- Portable Design Allows Machines To Roll Up to Existing Lines

## Additional Products & Services:

- Container Cleaning
- Turntables
- Filling Machines
- Conveyors
- Sealers
- Coders
- Labelers
- Container Separators
- End of the Line Equipment
- Full Line Integration

\*Standard Features will Vary with Capping Principle
